The proof has come out precisely as I had anticipated. Justice is all that Indiana claims: that she will have at all events, and the time will shortly arrive when she and her troops will stand higher in public estimation than any troops engaged on this sanguinary field. Much has been said of the troops, both infantry and cavalry, of other States, who ran from the enemy on that day, and that too without orders. Of them I shall not speak, except in self-defence; but history will eventually inform posterity that Indiana did more desperate and more hard fighting on that day, than any other State which was represented on the field.

"Do the people hereabouts recollect any thing of the speeches of Judge Wick, another of the Polk electors? He too, if we are correctly informed, was willing to whip Mexico on contract. We don't hear of his taking it. Why don't he do it ?"

The principal reason why Judge Wick has not undertaken the job of whipping the Mexicans by contract, we presume is, that he found there was no chance whatever to get it. Col. Benton offered to undertake it in that way, and every federalist in Congress, together with a portion of the democrats, opposed the dan. The Judge is so modest a man, that he could not have been prevailed on to try to get a job of the kind after Col. Benton was defeated.
